

The Shri Ram School, Aravali

Gurugram

A complete turnkey play solution using TigerTurf, EPDM & acrylic surfaces.

Project completion: July, 2022

Base: Plain cement concrete & asphalt

Surface: TigerTurf Premier, TigerTurf Panorama 25, TigerTurf Trophy, EPDM & Acrylic

The Shri Ram School is one of the premier institutions in the country and “the calendar of the Aravali campus is a mix of academic and co-curricular activities that testifies to their children’s ability to think independently and express themselves boldly and imaginatively.”

TigerTurf Premier was installed for cricket as it has a true and consistent bounce, is extremely hard-wearing and plays all-year round. It has a realistic turn and bounce, the surface is non slip, which means fewer injuries and more consistent balling patterns and also instils confidence in both the batsman and the bowler.

TigerTurf Panorama, that is “safe as a toy” (EN71-3* certified) was installed on a 10mm shock pad to provide better cushioning for the children for use in their outdoor gym. This natural looking turf is inviting, regardless of the weather, and ideal to help kids interact with the environment, safely.

For the children’s play area, keeping in mind critical fall height, the TigerTurf Trophy (ITF & FIH certified) was installed on a 25mm pad while the inviting EPDM surface was installed on a 19mm pad. When it comes to safety and giving children confidence, the shock pads work wonders.

The basketball court was installed on an asphalt base and the choice of the school was an acrylic surface as they wanted to give variety in sport surfacing to the young, budding athletes.

This was a complete turnkey project undertaken by Altius Sports, including civil works and reaffirms our expertise as a sports infrastructure development company.
